OVER 315 MILLION INDIANS LACK A DECENT PLACE CALLED **HOME.**

CAN YOU IMAGINE YOUR OWN FAMILY LIVING IN POVERTY-HOUSING...

- ...in a tiny unventilated room, everyone struggling to breathe
- ...a shack where disease-carrying insects infest thatched walls
- ...where the roof leaks and mud floors melt in the rain
- ...a four mile-walk to the nearest clean water
- ...children constantly falling ill and unable to study
- ...women lacking the dignity and privacy to their sanitary needs
- ...a shelter precariously built and there's hardly any money left for food, healthcare or reliable transportation to the only job you can find?

...CAN YOU JUST IMAGINE?

SLAM!
THE DOOR
on poverty-housing

A world of hope starts with the home. HELP BUILD IT!

With a bold challenge ahead, the IndiaBUILDS campaign of Habitat for Humanity India aims to provide decent and safe homes for over 50,000 underprivileged families across India by 2011 and to inspire the involvement of individuals, organizations, and governments so as to champion housing solutions for over 315 million Indians who lack a decent place to call home.

Habitat for Humanity (HFH) is a global non-profit organisation dedicated to the elimination of poverty-housing and homelessness, making decent, safe and affordable shelter a matter of everyone's conscience and action. Since its inception, Habitat for Humanity India has built over 30,000 homes sheltering more than 150,000 people and addressing human settlement issues for the underprivileged.
